

# INTERNATIONAL LUNG CANCER SUMMIT

INVITATION LETTER BY OUR CHAIRS

Dear Friends and Colleagues, dear Ann,

Following the great success of the International Lung Cancer Summit (ILCS) last year with over 1600 participants, we are delighted to invite you on behalf of the organising committee to the 6th edition of this interactive hybrid meeting on the 4th of October 2024. Similar to recent years, the ILCS will showcase latest discoveries and advances performed towards the treatment of lung cancer. The conference will again leverage digital channels to provide with an exceptional outreach and opportunity for delegates from Medical Offices, Universities, and Institutes to interact with world-class Medical Oncologists and Industry Professionals working in the field of lung cancer treatment and research.

The ILCS constitutes an ideal platform to share knowledge and seamless treatment procedures with our local and international speakers from the USA, Spain, Italy, Ireland, UK, Greece, Netherlands, and Switzerland. We kindly ask you to make a note of the conference and hope to see numerous appearances – your generous support is much appreciated!

We look forward to meeting you soon either virtually or on site in Lausanne!

**Alfredo Addeo, MD**  
Conference Chair

**Solange Peters, MD-PhD**  
Conference Chair

### WHAT PEOPLE SAY ABOUT THE ILCS

“Certainly my preferred lung meeting of the year. And the ILCS is by far the best virtual one I’ve seen so far.”

“Probably one of the best 1 day conferences I have attended, not only engaging on the online platform but I was able to engage through Twitter, which many of the speakers use and this made me feel included in the discussions.”
