Lausanne Forum on Peritoneal Cancer Treatments

29 & 30 September 2024
CHUV, Lausanne

CHUV 2024 | 154261

Dear Colleagues and Friends,

New technological developments and latest research are about to change the landscape of peritoneal cancer treatment. Novel diagnostic tools and multimodal treatment strategies bring new hope for our patients and exciting opportunities for interdisciplinary collaboration. The Lausanne Forum on Peritoneal Cancer Treatments brings together prominent clinicians and researchers for a two-day breakout of scientific exchange, inspirational lectures and presentation of the latest discoveries and exciting new projects.

We kindly invite all interested colleagues to join this event and to take active part in this endeavor. The Symposium offers something for everybody featuring late breaking news, interactive case discussions, disruptive innovations and two inspiring keynote lectures.

We are looking forward to welcome you!

Pr Martin Hübner, Dr Tobias Zingg, Pr Davis Fuks
